ABOUT TRICHUP KERATIN SHAMPOO

These protein treatments generally work by nourishing the outside of hair, strengthening strands externally to help prevent breakage. Used both to treat damaged hair and to encourage healthy, lustrous hair, protein is a great ingredient to incorporate into your regular hair routine. Protein plays a monumental role with damaged hair, as it helps to repair cell tissue. Brittle hair can contribute to premature hair fallout and thinning. Without natural protein for hair, it can become dull, dry and brittle.

Key Features:

- Enriched with Natural Proteins
