

About Us

ReliVet is a new business initiative of **Reliance Life Sciences** in the animal health sector, set up to offer advanced, world class, efficacious and quality products for the animal health market. Reliance Life Sciences envisions a future where its veterinary products and services will be readily available to pet owners, livestock producers, and veterinarians worldwide; enabling them to make informed decisions about animal health and well-being. Reliance Life Sciences strives to develop new and innovative healthcare solutions that address the unmet needs of animals and their caregivers, leveraging latest technologies and research in the field.

ReliVet Animal health products cover therapeutics, nutritional products and vaccines for both companion animals and livestock animals.

Vision

Become a trusted partner to veterinarians, pet owners, farmers and animal worldwide, by delivering high quality and competitively priced products and services.

Mission

Our mission at RELIVET is to improve the health and well-being of animals worldwide through innovative solutions and compassionate care.

Philosophy

We believe in working closely with our partners in the veterinary community to develop and deliver effective solutions that improve outcomes for animals and their caregivers. Our ultimate goal is to make a meaningful difference in the lives of animals and the people who love them, while contributing to the broader health and well-being of our planet.
